VISKON-AIRE*

REVOLUTION™ - MERV 13

HIGH EFFICIENCY EXTENDED SURFACE POCKET FILTER

Features

- 100% mechanical filtration ensures permanent efficiency
- Synthetic media utilizing "waves" to increase the surface area
- Resistant to humid environments
- Increased filter life
- U.L. Classified

Ideal for:

- · Hospitals,
- Schools
- Office Complexes
- Food and Pharmaceutical processing
- Data Centers
- Gun Ranges
- Airports
- Paint Booths
- Computer Rooms

Performance Data

Rating	MERV 13 @ 1968CFM		
Dust Holding Capacity	596.6 grams		
Initial Resistance	.298 in w.g.		
Final Resistance	1.50 in w.g.		

Construction

- Sonic Sealed Leak Free
- Self-Supporting
- Galvanized Steel Frame
- Aerodynamic internal channels

Part Number Guide

Prefix	Efficiency	Filter Size	Pockets	Gasket	Hanger	Header
		WxHxD				
RV = Revolution	MERV 13 85%		3P 4P	Blank - None	Blank-none	Blank-Standard 7/8"
			5P	R = Rear Load	1-Loops, 2 corners	CB- 1-1/8""
			6P	F = Front Load	2-Middle of Pocket	Example:
		1 1		S=One Vertical Side		RV1324242208F= Revolution Bag, MERV 13 Efficient, 24x24x22, 8 pockets, Gasket on air exit side of header
			9P 10P 11P	BS= Both Vertical Sides P=Perimeter		
			12P
