

NS 100

FILTER HOLDING FRAME

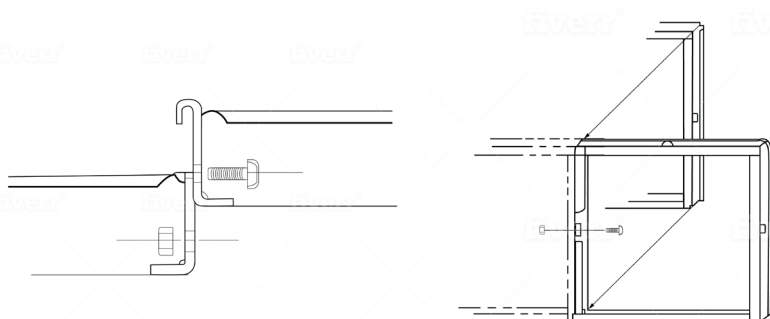

HIGHLIGHTS

- Heavy 16 gauge galvanized steel
- Interlocking lip construction
- Built with gasket and ludwig clips

CONSTRUCTION The NS-100 filter holding frame is constructed with a heavy 16 gauge galvanized steel. An interlocking lip construction to make building filters banks more rigid. Built with a gasket applied on the inside lip to stop air bypass. Ludwig clips are installed on both sides to secure a filter. Nuts and bolts are available upon request. Available in both standard and special sizes. Available in 2 1/8", 3 1/8", and 4 1/8" thicknesses. Also available in aluminum.
